

Customer Advisory (ADV) Number: ADV-2006-001

Issue Date: 26-Jun-2020

Dear Efinix Customers,

Efinix Inc. is providing this advisory for a change in device marking for **Trion® FBGA81** product family.**Description:**

Current T04_FBGA81 Marking	New T04_FBGA81 Marking	
Speed Grade (Top Right) = 2 Device and Package = T4F81C	Speed Grade (Top Right) = C2 or I2 Device and Package = T4F81	

Current T08_FBGA81 Marking	New T08_FBGA81 Marking	
Speed Grade (Top Right) = 2 Device and Package = T8F81C	Speed Grade (Top Right) = C2 or I2 Device and Package = T8F81	

**Affected Products:**

<b>T04_FBGA81</b>	<b>T08_FBGA81</b>
-------------------	-------------------

**Customer Advisory (ADV) Number: ADV-2006-001**  
**Issue Date: 26-Jun-2020**

**Reason for Change:**

The new Speed Grade marking format on Trion® FBGA81 products enables clear identification of Commercial (C2) vs. Industrial (I2) grades, the differentiation is an effective anti-mixing measure in semiconductor manufacturing and material handling processes.

**Change Implementation:**

This change is to take effect from **Date Code 2028 onward**.
